## HALF A SQUARE — MICHAEL ANASTASSIADES 2020

1-

The project is distinctly minimalist in design but rich in his choice of materials, such as aluminium, marble, reflecting glass and eucalyptus or graphite oak. The frame, made of brushed aluminium and painted pewter colour and green, is assembled by means of the strong pressure die cast legs. The joint between the parts determines a decorative triangular-shape finished in brass which enhances the solidity of the frame and characterizes the elegance of the design. The table tops are made of marble, grafene reflecting glass and eucalyptus or graphite oak. They come in different sizes, rectangular and square. A design where Anastassiades' engineering training almost prevailed over his skills as a designer to offer us a unique and intriguing object.

#### HALF A SQUARE-

MICHAEL ANASTASSIADES 2020

#### **FINISHES**

LEGS/STRUCTURE FINISHES pewter colour (satin finish) green (satin finish) - special finish for Half a Square

#### TOP FINISHES

eucalyptus - graphite oak - grafene reflecting glass marble (silver wave, green alpine, Sahara noir, calacatta gold)

Internal leg cover always in brass finish.

#### **TECHNICAL INFORMATION**

# Molteni & C

**LEGS** 

Painted diecast aluminium with painted metal cover.

#### TOP PERIMETER STRUCTURE

Painted extruded aluminium.

**2**-

WOOD TOP

Medium density fibreboard panel with solid wood edges and surfaces covered in wood veneer.

#### **GLASS TOP**

Painted reflecting tempered glass, on a support in chipboard with melamine facing.

#### MARBLE TOP

In marble with water-repellent stain resistant treatment, with support in laminate.
