Nimbus Mirror

Looking to the way in which a picture or a painting is framed, the Copenhagen-based design studio Krøyer-Sætter-Lassen investigated how an entire frame could surround a mirror without detracting from the beauty and reflection of the glass. The result is Nimbus, a refreshingly simple mirror in bronzed brass and light-reflecting glass which defines a space with its soothing and sophisticated round shape.

A mirror isn't merely purely functional: since ancient times, they have reflected the style of a period—framed by ornate Baroque flourishes or Gothic arches and the simple lines of the Bauhaus movement. MENU's latest iteration takes the fundamentals of the mirror into the modern age, yet with a mythological twist, referenced in its name: in Greek mythology Nimbus was a shining cloud or corona that often surrounded a deity when on Earth. Design studio Krøyer-Sætter-Lassen looked to the way in which a painting or picture is framed to change the overall expression of the artwork. Encompassed by a halo-like bronzed brass ring, held in place by decorative screws, the circular mirror adds to the sense of light and space in a room.

Notes to Editor

MENU is a Scandinavian design brand with a simple purpose: to make the world more beautiful, less complicated, and a little bit nicer to wake up to.

Since 1978, we have harnessed the skills of top designers and craftspeople in Scandinavia and around the world to create contemporary design that is clean, clever and natural. These principles culminate in an aesthetic we call soft minimalism. Together with our Danish Modernist roots, this concept serves as a foundation for our designers as they find new ways to unite our heritage with a fresh vision for modern living, reimagining mid-century modern

values to bring irresistible new ideas to people and spaces. Your chosen objects will be with you for years to come. We know every decision you make is important, and we want nothing more than to bring joy, beauty and ease to the process of designing your space. It's why we exist and what we do best.
