# POV Oval

Bringing the eye directly to the center of this light source, the original circular POV Candleholder was both decorative and functional. With a range of shapes and materials, the candleholder offers the perfect wall-mounted spark of light for any space.

The updated oval shape of the POV candleholder replicates not only the focus, but now the shape, of an eye. The various placements of the single-band votive are visually stimulating. While one candleholder produces a minimalist silhouette, a number of them together produce an artistic mosaic.

The wall-mounted candleholder is now available in brushed brass, with the option of regular candle or tealight editions. This offers a variety of looks that can fit any room style. Mixing shapes and colours will produce an eclectic look, while a single or multiples of the same shape and colour create a geometric and sculptural aesthetic.

## About the Designer

Note is a Stockholm-based design studio founded in 2008 and working in the fields of architecture, interiors, products and graphic design. "We are seldom inspired by the design world," they tell us. "Instead we influence each other, pushing ourselves further and further towards our goal – world domination!" That playful sense of humour is at the heart of their practice too. "We want to put a smile on the user's face, and for there to be a friendly and welcoming sensation that follows through the whole experience of the product. We want to affect people in a positive way."

## Notes to Editor

MENU is a Scandinavian design brand with a simple purpose: to make the world more beautiful, less complicated, and a little bit nicer to wake up to.

Since 1978, we have harnessed the skills of top designers and craftspeople in Scandinavia and around the world to create contemporary design that is clean, clever and natural. These principles culminate in an aesthetic we call soft minimalism. Together with our Danish Modernist roots, this concept serves as a foundation for our designers as they find new ways to unite our heritage with a fresh vision for modern living, reimagining mid-century modern values to bring irresistible new ideas to people and spaces. Your chosen objects will be with you for years to come. We know every decision you make is important, and we want nothing more than to bring joy, beauty and ease to the process of designing your space. It's why we exist and what we do best.
