The Scandinavian simplicity and purity of New Norm Dinnerware has won hearts all over the world. A Menu bestseller, the series has a uniquely Nordic feel. Each new addition to the family is tested in Høst, a leading Copenhagen restaurant. And we don't just care about aesthetics. All designs are colour-glazed and burned twice at 1400 degrees for maximum strength. The production takes place in a state of the art European factory, specialising in porcelain for restaurants and hotels. This gives your plates and bowls exceptional durability.

## About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
