# Get in the Christmas Spirit with Normann Copenhagen

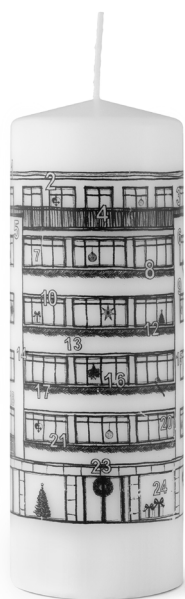

As tradition has it, we have created a calendar candle which makes for a cosy way to count the days till Christmas day. This year our Christmas candle features a sketch of our new Normann Copenhagen headquarters complete with hand drawn Christmas decorations in the windows, illustrating some of the many traditional symbols of Christmas time such as presents, candy canes and mistletoes.

The burning time of the candle is 88 hours, allowing for many candlelit “hygge” moments during December.
