

## Mayday Outdoor

■ F038AAAA0ZZ - Black

Designed by Konstantin Grcic

Multipurpose lighting appliance suitable for installation outdoors. Hook/handle, which also works as a cable winder, and an injection-moulded opaline conical diffuser made from sustainable polypropylene produced from industrial process waste. Button switch located on the handle. The light source is protected from atmospheric agents by a transparent airtight capsule made from sealed polymethyl methacrylate with an elastomer gasket that helps achieve a protection rating of IP 65. As no glue is used in the assembly process, Mayday is easy to dismantle so that every part can be properly recycled.

### Main specifications

|                      |                      |                           |        |
|----------------------|----------------------|---------------------------|--------|
| <b>Mounting</b>      | Hand lamp            | <b>Autoprotected Lamp</b> | No     |
| <b>Environment</b>   | Outdoor wet location | <b>Number of heads</b>    | 1      |
| <b>Lamp category</b> | LED retrofit         | <b>Source Power (W)</b>   | max 10 |
| <b>Lamp holder</b>   | E14                  |                           |        |
| <b>Dimmable</b>      | No                   |                           |        |

### Optical

|                           |        |
|---------------------------|--------|
| <b>Lighting Type</b>      | Direct |
| <b>Cold Beam Lighting</b> | No     |

### Electrical

|                           |         |
|---------------------------|---------|
| <b>Insulation class</b>   | II      |
| <b>Frequency (Hz)</b>     | 50-60   |
| <b>Main Voltage (Vac)</b> | 220-240 |
| <b>Dimmable</b>           | No      |
| <b>Emergency Type</b>     | No      |
