ALLURE

TABLES AND SMALL TABLES | Indoor
BAXTER P.

The Allure metal coffee table enhances living rooms with an interpretation of the circle in three different scales, balancing these with a single rectangle concept. A contemporary, unexpected interpretation of more conventional living room furniture geometries that invites us to play with the senses. Beneath the antiqued metal surface with shiny and matt hues, in the pleats of the base, a glimpse of functional and stable Doric columns which, up close, recall the conceptual architecture of 20th century northern Europe.

Model: assembly required.
Structure: black stained MDF frame with glossy varnish.
Plan / Surface: removable protective film in multilayer polyester. It protects the top during transport and during display in showrooms. It can be removed immediately or kept on until damaged.
