

Introducing the Staffa Collection

Say hello to the Staffa Collection. Including a coffee table, pedestal and stool, the series features bold furniture pieces inspired by the unique volcanic rock formations found on the ancient island of Staffa in Scotland.

Paying homage to their namesake, which means pillar in old Norse, every piece is crafted entirely from glass fibre reinforced concrete, using an innovative casting process that provides each item with a rough, uneven shape reminiscent of blocks of carved stone. Suitable for both indoor and outdoor use, the Staffa series presents intriguing pieces that blur the line between art and functionality.

Place the contemporary pieces in the centre of your living room or outside lounge area and watch as it naturally sparks conversation.
