ARMCHAIRS

Naoto Fukasawa

Description

The name recalls the butterfly because, as explained by the author, “the backrest designs the two wings with the head resting between them and protected by them.” It seems carved out of a block of material from which its inverted truncated cone shape derives. With a powerful personality, its swivel system facilitates contact with the surrounding environment. The chair includes an ottoman footrest for an absolutely relaxing position.

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
