FRAME CHAIR

Alberto Meda, 1991

The products of the FRAME CHAIR collection display a light and rigorous touch, which results in comfortable seats. In various sizes, the stackable Highframe 40, Bigframe 44 and Frame 52 chairs are available with or without armrests. The Frame stools are perfectly consistent with the collection and are available in two heights. The version with seat and backrest in PVC-coated polyester mesh is complemented by leather and fabric versions for a more sophisticated style.
