
Maru

SMALL TABLES

Nipa Doshi and Jonathan Levien

Description

The key feature of the small tables Maru is the thick top combined with the structure composed by three die cast aluminium legs. Two diameters: 51 and 141 cm, which make them the ideal choice either as coffee tables in front of the sofa or as occasional tables. The small table with diameter 51 cm, available in 16 colours, combines a glossy painted top with a satin painted structure. For the one with diameter 141 cm the top can be chosen among glass, wood and marble, while the structure is available in the finishing satin black painted, satin chalk white painted, painted black chrome or pewter painted.
