

# LAZYBONES

CHAIRS | Indoor  
STUDIOPEPE

Lazybones is a sculptural chair designed by Studiopepe with the idea of creating a three-legged seat inspired by monoliths and primitive architecture. Characterised by archetypal forms, the chair plays with the structure's massive volumes contrasted with the softness and comfort of the padding and leather upholstery. Lazybones is characterised by three oversized, solid and imposing legs that emphasise its archaic solemnity. Its solid design fluidly interacts with the rounded, generous shapes of the backrest, making it ideal for leisure and social occasions.

**Structure:** structure in plywood and poplar plywood.

**Padding / Filling:** padding in differentiated density polyurethane foam with acrylic fibre cover.

**Spring system:** springs in woven elastic straps of covered rubber.

**Feet / Legs:** pVC wheels.

Chair.
