

Alias

teak chair - 476_0

Stacking chair with arms for outdoor use with structure in stove enamelled die-cast aluminium. Seat and back in teak flats.

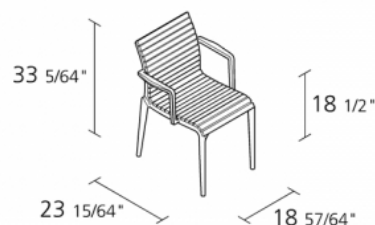

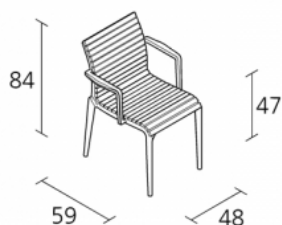

design
Alberto Meda

The teak collection returns to the essence of the setes bench with its chairs, tables and chaise-longue models. Manufactured with teak wood slats on a die-cast aluminium frame, the products of the teak collection are resistant over time and pleasant to the touch. Suitable for outdoor areas, they add solidity and attention to detail to the outdoor collections. The chairs practical, stackable and with a lightweight aluminium frame, with teak slats cut out in the lumbar support seat area, thus adding elasticity, ergonomics and comfort. The tables with structure in aluminium and top with the characteristic teak slats are available in varying sizes. The dimension of the 200 top includes both the fixed and the functional folding structures.

Dimension

Year warranty: 2 years
Production time: 4 weeks
Maximum number of chairs for stacking: 4
100% Recyclable
Boxes number: 1
Max.number pieces per a box: 2
Volume in m³: 0,376
Gross weight in Kg: 9,5
